Professional Teledata Announces Recognizes Angelo Celesia with the 2015 Allen Kalik Award

Manchester, NH – October 16, 2015 – Professional Teledata, a pioneer of hosted and premise-based solutions for call centers, today announced Angelo Celesia, former owner of Professional Answering Service, as the 2015 Allen Kalik Award recipient. The announcement was made during the annual PIN User Group Meeting in Baltimore, Maryland.

The Allen Kalik Award was implemented in 2011 after the passing of industry leader and Professional Teledata's late president, Allen Kalik. Honoring Allen for his tremendous contributions to the telecommunications industry and the PINetwork Group, this award recognizes individuals whose unselfish dedication and leadership have led to the advancement of the PINetwork Group.

"We are thrilled to recognize Angelo with the 2015 Allen Kalik Award," said Pat Kalik, director of customer relations for Professional Teledata. "Angelo truly embodies the award, and everything that it stands for. We thank him for his time, dedication and continuing commitment to our organization."

"It is an honor to receive this award," said Angelo. "Allen tirelessly devoted himself the TAS industry and the PINetwork. I am humbled to be included among such esteemed company." In 2013, Angelo served as president of the PINetwork board of directors. Angelo is also an avid runner and coaches cross-country running for a local middle school.

About Professional Teledata: Professional Teledata provides innovative software solutions to call centers around the world for transaction processing, inbound and outbound program design, billing management, and appointment reminder services. With headquarters located in Manchester, New Hampshire, the company services the telephone answering service and call center industries and brings the latest technology to the forefront of these industries.
