## Startel and Pulsar360 Announce Strategic Partnership

Irvine, CA and Littleton, CO – May 31, 2016 – [Startel Corporation](#), a leading provider of [unified business communications](#) for contact centers, healthcare, and telephone answering services (TAS), today announced a strategic partnership with [Pulsar360](#), a telecommunication solutions provider to small and mid-size organizations.

Pulsar360 currently provides tens of thousands of SIP trunks, DIDs and toll free numbers to more than 80 TAS customers. As part of the partnership, the companies have successfully completed interoperability testing of the [Startel Soft Switch](#) with Pulsar360's telecommunication services. Together, Startel and Pulsar360 can now deliver comprehensive voice, data, and contact center solutions to the TAS marketplace and their joint customers.

“Our strategic partnership with Pulsar360 will help enable us to deliver a industry-focused, reliable, and cost-effective communication solution to the TAS market,” said Bill Lane, president and CEO of Startel. “We are looking forward to working together to provide our mutual customers with top notch services and solutions.”

“Like Startel, Pulsar360 is a service-oriented company focused on helping its clients realize their business objectives,” said Michael Dozier, president of Pulsar360. “We have made significant investments in network infrastructure and service offerings to meet the special requirements of the TAS Industry, and we are excited to partner with Startel to provide our joint customers with a comprehensive and valuable service.”

### About Pulsar360, Inc.

Pulsar360 is a North American based telecommunications provider that offers hosted cloud PBX and premise based systems, SIP trunks, carrier services and business continuity disaster recovery. With origins dating back to 2001, Pulsar360 is one of the oldest VoIP/digital phone service companies in the United States and Canada. Our team of telecom professionals has over 210 years of combined experience building and managing communications networks.
