The Payment Portal
Making bill paying easier than before

Key Features
- Easy account management
- Custom branding
- Strong encryption
- Flexible payment options
- Optional TBS3 feature

Key Benefits
- Optimize user experience
- Decrease payment processing fees
- Reduce likelihood of human error
- Maintain database for minimal IT costs
- 24/7 dedicated support

ThePaymentPortal.com is a hosted, online, secure e-commerce site where your accounts can access statements, view invoices, and pay bills at their convenience. It is offered as an optional feature for Professional Teledata’s accounts receivable billing system, Total Billing Solution 3 (TBS3).

System Requirements
A payment portal interface implementation requires the following:

- Total Billing Solution version 3.1
- Advantage Database Server Version 11.1
- An updated TBS3 license, one for each database
- A USAePay account for each TBS3 database to collect payments online.
Implementation
Professional Teledata makes installation easy! We install the interface, assist with account configuration, provide custom branding of your account web pages, and train your users. In order to accept payments online, a separate USAePay merchant account is required.

Support
The Payment Portal is supported by our help desk. Our staff monitor and maintain the web server.

Costs
There is a one-time setup fee which covers configuration, training and testing of the interface. There is also a monthly subscription fee to maintain the site.

<tbody>
<tr>
<td>Easy Account Management</td>
<td>Your clients access their account's statement and invoices. Clients also register and maintain their own credentials. You don’t have to manage client passwords.</td>
</tr>
<tr>
<td>Custom Branding</td>
<td>Pages are branded with your company logo, colors and contact information.</td>
</tr>
<tr>
<td>Strong Encryption</td>
<td>Communication with the website and data at rest is strongly encrypted to resist any potential data breaches.</td>
</tr>
<tr>
<td>Flexible Payment Options</td>
<td>Your clients can pay via credit card or electronic check using a USAePay secure server.</td>
</tr>
<tr>
<td>Statement / Invoice Access</td>
<td>Users can download and view invoices from the statement page. A statement for each account can be displayed with up to six billing cycles of transactions.</td>
</tr>
